ACMF HEAT PUMP COVERS

ACMF

HEAT PUMP COVER ON A TIMBER DECK

A C M F

ACMF HEAT PUMP COVERS

The outdoor unit, tidied away.

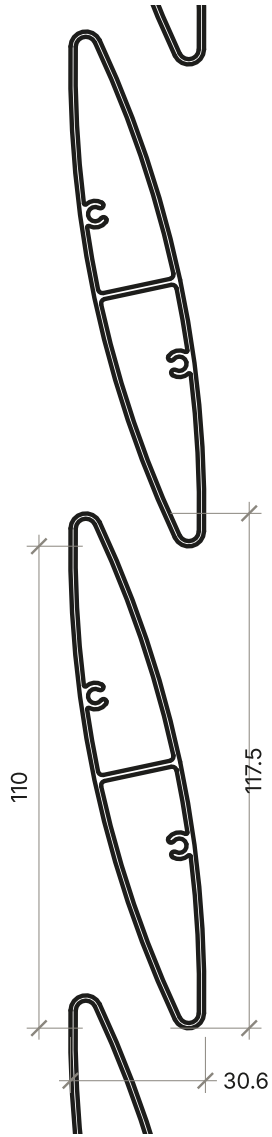

A louvred aluminium cover that turns the heat pump outdoor unit into a clean, low piece of joinery on the deck, beside the path or under the window.

The louvres screen the unit from view while air moves through the front and both sides. The back stays open to the wall for airflow, and the cover detaches from the wall for full service access.

Four standard sizes, S, M, L and XL, suit most residential outdoor units, and we make covers to measure for everything else. Every cover is powder coated in a colour chosen to sit with your joinery, cladding or spouting.

ACMF (ACM Fabricators Limited) is a New Zealand aluminium fabricator. We also supply and install Reynaers fire-rated windows and doors, so the cover is made with the same care as the building around it.

Section through the front louvres, size M. Dimensions in mm.

AEROFOIL LOUVRES

117.5 mm

Each louvre is a hollow aerofoil blade, 117.5 mm deep and only 30.6 mm thick. The blades are tilted and overlap one another, so from the deck you see louvre, not machinery, while air still passes between them.

OPEN BACK

The cover stands against the wall with the rear left open for airflow. Detach the cover from the wall for full service access.

SOLID LID

A folded aluminium top keeps rain, leaves and direct sun off the unit.

CORNER POSTS

Square posts carry the louvres and lid, and stand the cover just clear of the deck.

POWDER COATED

Nine standard colours, or matched to your project.

SIZE S · SMALL

Suits outdoor units up to 800 W × 650 H × 320 D.

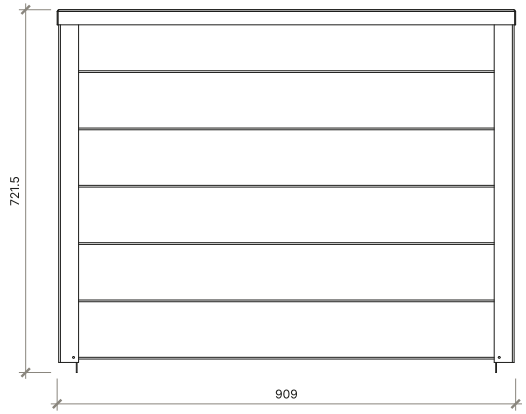

$695.00

incl. GST, fully assembled

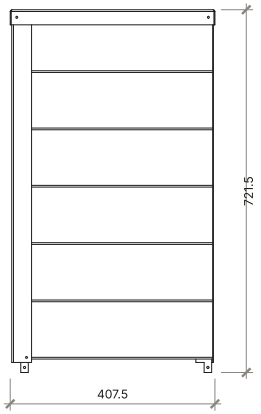

$521.25 as a flat pack (25% off)

Cover size	900 W × 700 H × 400 D

SIZES AND PRICES

Measure the unit. Pick the size.

HOW TO CHOOSE

Measure the width, height and depth of your outdoor unit, including pipes and brackets that stick out. Choose the smallest cover where all three fit within "Suits units up to".

FULLY ASSEMBLED OR FLAT PACK

Take the cover home ready to place, or save 25% with a flat pack. Assembly needs only a screwdriver to fix the louvres to the frame, and ACMF supplies all fixings.

INSTALLATION MANUAL

Every cover comes with an installation manual.

	SIZE S	SIZE M	SIZE L	SIZE XL
Cover size, W × H × D	900 × 700 × 400	1050 × 900 × 450	1350 × 1000 × 500	1550 × 1150 × 550
Suits units up to	800 × 650 × 320	950 × 850 × 380	1250 × 950 × 450	1450 × 1100 × 500
Fully assembled	**$695.00**	**$995.00**	**$1,295.00**	**$1,695.00**
Flat pack, 25% off	**$521.25**	**$746.25**	**$971.25**	**$1,271.25**

COLLECTION AND DELIVERY

Prices in NZD including GST. Delivery is not included: collect from 72 Ellice Road, Glenfield, or we can deliver in the Auckland area for a fee.

MADE TO ORDER

Made to order, ready in up to 10 working days from your deposit. 50% deposit when you order, the balance on collection or before delivery.

Cover sizes in mm (W × H × D). Prices may change; the price confirmed at order applies. Custom sizes are quoted.

FLAT PACK OR MADE TO MEASURE

Simple parts.
One screwdriver.

The cover is built from a small set of parts: the lid, four corner posts, and the front and side louvre banks. As a flat pack it goes together with only a screwdriver, using the fixings ACMF supplies and the installation manual in the box.

Not every outdoor unit fits a standard size. Send us the make and model, or measure the unit, and we will size a cover around it: wider, taller or deeper as needed.

LID

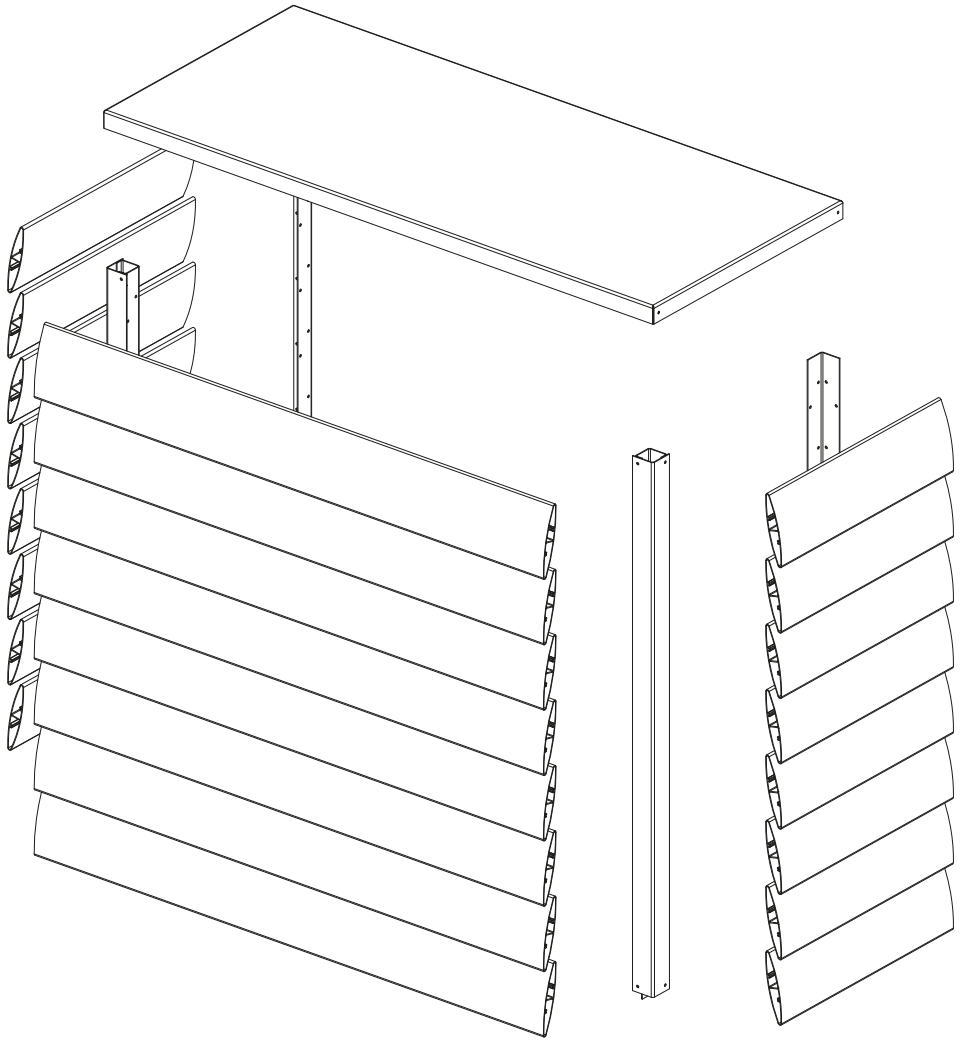

Folded aluminium top

Four square corner posts

LOUVRE BANKS

Aerofoil blades to the front and both sides, screwed to the frame

Exploded view, size M.

STANDARD COLOURS

Match the joinery, or disappear into the cladding.

Nine standard powder-coat colours cover most New Zealand homes, from black and charcoal joinery to light weatherboards. Other colours are available on request.

Colours and renders are indicative only. Please ask for a physical sample before ordering.

Black

Appliance White

Ironsand

Titania

Grey Friars

New Denim Blue

Flaxpod

Off White

Sandstone Grey

SAME DECK, THREE COLOURS

Light to blend in. Dark to frame the joinery.

TITANIA

NEW DENIM BLUE

BLACK

FOR INSTALLERS AND SPECIFIERS

Specify it with the heat pump.

Adding the cover to the heat pump quote means the outdoor unit is finished on the day it is commissioned, not left for the owner to sort out later.

CLEARANCES FIRST

Every heat pump maker sets minimum clearances around the outdoor unit. Check the installation manual for the unit before fitting any cover, and send us the model number so we can size to it.

SERVICE ACCESS

Detach the cover from the wall for full access.

	SIZE S	SIZE M	SIZE L	SIZE XL
Cover size	900 × 700 × 400	1050 × 900 × 450	1350 × 1000 × 500	1550 × 1150 × 550

HOW TO ORDER

From a tape measure to a finished cover.

01

Choose

Measure the outdoor unit and pick the size from the table, or send us the make and model and a photo of where it sits.

02

Order

Choose fully assembled or flat pack and your colour. A 50% deposit starts production.

03

Fabrication

Cut, assembled and powder coated by ACMF. Made to order, ready in up to 10 working days.

04

Collection

Collect from 72 Ellice Road, Glenfield, or we deliver in the Auckland area for a fee. The balance is paid on collection or before delivery.

05

Fit

Flat packs go together with a screwdriver, using the fixings supplied. Every cover comes with an installation manual.

Prices in NZD including GST. Delivery is not included: collect from 72 Ellice Road, Glenfield, or we can deliver in the Auckland area for a fee.

ACMF

HEAT PUMP COVERS

If the heat pump is in view, we would like to see it.

Four sizes from $521.25 incl. GST as a flat pack, or from $695.00 fully assembled. Not sure which size? Send us a photo of the outdoor unit and its model number and we will tell you.
